Experiences

Independent Experience Designer

E-commerce, Hospitality, Growth Marketing — Remote, Canada (Apr 2026 - Present)

- Lead end-to-end UX/UI web redesigns and digital product enhancements for Canadian startups, agencies, and small businesses with a strict focus on WCAG 2.1 and AODA compliance.
- Produce developer-ready design documentation, responsive component specifications, and interactive Figma prototypes to streamline engineering handoffs and reduce QA rework.
- Audit complex digital applications and user flows to identify usability friction points, accessibility gaps, and visual hierarchy improvements based on customer feedback and behavioral metrics.
- Leverage AI-assisted workflows (Claude, OpenAI) to accelerate conceptual discovery, stress-test information architecture models, and speed up execution from research insights to working prototype.
- Coordinate with multiple stakeholders, manage project timelines, and deliver high-quality creative assets across multiple channels.

East West Ageas Life Insurance - UI/UX Manager

Enterprise Digital Transformation, Financial Service, Insurance — Taguig, Philippines (Jan 2023 - Jul 2024)

- Built and governed the company's enterprise design system in Figma, establishing UI token frameworks, accessibility rules, and documentation standards that reduced design-to-engineering delays.
- Led service design across a fragmented insurance ecosystem, mapping relationships between advisors, customers, underwriting, operations, branch teams, CRM, customer portals, and policy systems.
- Reduced application processing time from 1 hour to 30 minutes, accelerated policy issuance from 3 days to 1 day, reduced operational core costs by 65%, and enabled 70% automation of new business processes.
- Spearheaded user research (remote usability testing, focus groups, stakeholder interviews) to simplify dense decision-making processes for policyholders and operations teams.
- Led a multidisciplinary design team while actively delivering hands-on interaction architecture, wireframes, and responsive user interfaces for multi-stakeholder enterprise tools.
- Instituted bi-weekly design system enablement sessions for Product Managers, Engineer, and QA leads, achieving cross-functional adoption across 6-month Kanban delivery cycles.
- Promoted timely UX insights, translating them into actionable recommendations that inform product and design service strategy.

Independent Product Designer

E-commerce, Marketplace, MarTech, Omnichannel E-commerce Ecosystems, Healthcare, Freight — Global, Remote (Nov 2020 - Dec 2022)

- Delivered 30+ end-to-end digital product design projects across e-commerce ecosystems, data dashboards, freight logistics, and MarTech for international clients in Canada, US, UK, and Australia.
- Led the full-cycle UX/UI redesign of Titan Network (mobile apps, Amazon campaign management tools, data dashboards), growing active platform membership by 1,000+ and improving user retention.
- Designed information-dense analytical dashboards (Amazon Ads, Titan Network), translating multi-layered financial and campaign metrics into clear visual stories for executive decision-making.

Freelancer.com Inc. – Inhouse UI & UX Designer

Global Marketplace, 80+M users — Sydney, Australia (Oct 2018 - Oct 2020)

- In-house Product Designer embedded within cross-functional product squads (Vancouver, Sydney, London, Manila) owning Growth, Core Marketplace, Search, and Trust & Safety.
- Scaled the official global design system (Bits.Freelancer.com) for 80M+ users, building accessible, reusable web components that reduced platform design debt by 45% in 1 year.
- Redesigned user onboarding and identity verification (KYC) to adapt to regional regulations in California, Europe, and Australia, increasing verified account conversion by 35% within 3 months of launch.
- Optimized global search of the platform, driving a 60% uplift in hourly funnel revenue while reducing CX support tickets by 35%.
- Launched community portfolio features that increased user profile engagement by 11% and overall content discovery engagement by 8%.

Imfree Inc. – Product Designer

AdTech - Location-Based Marketing, Data & Consumer Analytics — Taguig, Philippines (Sep 2017 - Sep 2018)

- Designed, documented, and shipped end-to-end user experiences for B2B mobile apps and web admin dashboards.

Additional Info

Authorized to work full-time in Canada
On-site, Hybrid, Remote

Languages
English (Bilingual)
Filipino (Native)

- Conducted qualitative user interviews and usability testing, leading design optimizations that drove a 30% increase in user retention.
- Built and maintained the early mobile UI component library to ensure visual and interaction consistency across product lines.

TrueMoney Philippines – UI Designer
Fintech - Digital payments and Remittances — Taguig, Philippines (May 2016 - Jun 2017)

- Designed online and offline (O2O) payment interfaces, and mobile merchant tools (B2B) , serving a fintech ecosystem reaching 10,000+ financial merchants.
- Conducted field interviews and market research across regional merchant networks to identify operational friction points and improve transaction UX.
- Collaborated directly with product, QA, and engineering teams on web and mobile POS delivery.

Certifications

Product Management: Building a Product Strategy
Project Management Institute (PMI) — Dec 2025

Technical Product Management
LinkedIn Learning — Dec 2025

AI-Driven Product Designer
LinkedIn Learning — Dec 2025
